EDUCATION

ESA UNGGUL UNIVERSITY – Tangerang, Indonesia

Sept 2022 – Present

Bachelor, Informatics Engineering (GPA: 3.84/4.00)

- Relevant Coursework: Web Development, Software Project Management
- PIC (Person in Charge) of Google Developer Group on Campus

PROJECT

Reservation Website for Restaurant

Apr 2024 – Jun 2024

- Built the backend using Laravel, integrating MySQL database for efficient reservation management and user authentication
- Implemented a responsive front-end using HTML, CSS, and JavaScript, ensuring seamless cross-device accessibility
- Analyzed business requirements for developing a restaurant reservation website

HealthyLife Fit Hub Mobile Apps

Jan 2025

- Developed CRUD features and authentication using Laravel, optimizing API communication
- Connected the Flutter frontend to the Laravel backend, optimizing API requests for faster response times
- Developed and integrated secure authentication using Laravel Sanctum, ensuring user data protection and access control

WORK EXPERIENCE

Kudata – Remote

Mar 2025 – Jun 2025

Frontend Engineer Intern

- Collaborated with the frontend team to develop a testing strategy using Vue Test Utils, increasing unit test coverage to 80% and improving test reliability and stability
- Refined UI components based on user feedback during development, resulting in a more user-friendly and intuitive experience
- Worked closely with the backend team to design data flows and build new features, ensuring seamless component integration and optimal functionality

PT BIMA DIGITAL INDONESIA – Remote

Jan 2025 – Jun 2025

Frontend Web Developer Intern

- Participated in building a 8-page website, contributing to planning, UI design, and implementation using Next.js
- Improved website performance and responsiveness by optimizing asset loading and rendering techniques
- Boosted development efficiency by 30% through the creation and implementation of reusable UI components with Tailwind CSS

BTS TECH EDUCATION – South Tangerang, Indonesia

Sept 2024 – Present

Programming Tutor (Part-Time)

- Deliver structured learning materials provided by the institution to help students improve their understanding of OOP and algorithms, resulting in a 30% improvement based on quiz and project evaluations
- Assist students in debugging over 50 coding problems, contributing to an 80% task completion rate through guided support
- Teach the basics of HTML, CSS, and JavaScript, enabling 70% of students to create their first interactive web pages
